

JOHN J. STEUBY CO.

QUICK DISCONNECT MANUFACTURING

QUICK DISCONNECT PRODUCTS

Connect quickly and with confidence. John J. Steuby offers a variety of quick-connect fittings that enable quick, simple operation without twisting, turning, or wrenching.

Engineered to minimize leakage and air inclusion, our quick-connects are available in a wide range of configurations, stem and body connectors, including single-end shutoff and double-end shutoff models, and an array of end connections.

- Mold
- Elbow
- Gas Coupler
- Schrader
- Industrial
- Straight Through

Although most configurations are standard we will also custom manufacture your quick disconnect product from supplied drawings to meet your materials, price and delivery requirements.
